PROFESSIONAL SUMMARY

Data Analyst and Full Stack Developer (MCA student) with hands-on experience in Python, SQL, and the MERN stack. Skilled in data cleaning, EDA, and building full stack web applications. Seeking a internship to apply data and development skills on real-world projects and contribute to data-driven decision-making.

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript, HTML, CSS
- **Data Analysis:** EDA, Data Cleaning & Wrangling, Statistical Analysis, Data Visualization
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Excel (Pivot Tables, VLOOKUP), Power BI
- **Full Stack:** React.js, Node.js, Express.js, EJS, Bootstrap, Tailwind CSS, REST API
- **Databases:** MySQL, MongoDB, CRUD Operations
- **Tools:** Git, GitHub, Jupyter Notebook, VS Code, Postman

PROJECTS

Wanderlust – Airbnb Clone

Node.js, Express.js, MongoDB, EJS, Bootstrap

GitHub
2026

- Built a full stack property listing web app with user authentication and booking management.
- Designed RESTful APIs using Node.js and Express.js; stored 1,000+ listings in MongoDB.
- Implemented session-based login, server-side validation, and flash notifications.
- Performed CRUD operations ensuring data consistency and referential integrity.

Crop Production Data Analysis

Python, Pandas, NumPy, Matplotlib, Seaborn

2026

- Analyzed multi-state Indian crop dataset covering seasons, districts, and crop types.
- Cleaned raw data by handling missing values and duplicates, improving quality by 35%.
- Identified top-producing states and crops using group-by aggregation and statistical analysis.
- Built heatmaps, bar charts, and line plots to visualize yield trends and regional gaps.
- Generated insight report to support agricultural planning and data-driven decisions.

Real-Time Weather Forecast Application

react, REST API, JSON

2026

- Integrated a third-party REST API to fetch live weather data for 10+ cities automatically.
- Parsed JSON responses into structured Pandas DataFrames for trend analysis.
- Built error handling and data validation to ensure clean and reliable pipeline output.
- Tracked weather trends across cities using time-series style data summaries.

EDUCATION

Master of Computer Applications (MCA)

Jaipur National University, Jaipur, Rajasthan

Aug 2025 – Aug 2027
Currently Pursuing

Bachelor of Science (BSc)

Veer Kunwar Singh University, Bihar

2022 – 2025
Graduated

CERTIFICATIONS

Data Analytics – Samatrix Consulting Pvt. Ltd.

Credential ID: roy8D0SjrL

Dec 2025

Full Stack Development – Apana College

2026

LANGUAGES

English • Hindi
